Sound has been used in various cultures for thousands of years as a tool to move from a place of imbalance to a place of balance.

The relatively new technique of sound therapy employs the vibrations of the voice to move toward a state of relaxation and to foster wellness. After all, there is no tool more powerful than the voice. You do not need an amazing voice to tap into this power. You simply have to have the desire and a little guidance.

Instructor Karen Novy invites all patients facing cancer and their loved ones to explore the power of their voice for healing. Novy will guide you through breathing techniques, vocal toning and chanting.

Past participants who have learned this technique have stated they feel reduced anxiety while experiencing a sense of peace and grounding in their own body, mind and spirit.

Research has shown that techniques such as vocal toning create a vibration that promotes healing throughout the body. It works in the same way as Eastern medicine practices such as gong baths and treatments with Tibetan bowls, but with vocal toning, you learn to use the vibration of your voice as an internal massage.

Join the Duke Cancer Patient Support Program and Karen Novy January 10 and 24 at noon to Explore the Power of Your Voice for Healing. Starting February this online workshop will occur monthly on the first and third Monday of each month at noon. Registration is required. Visit dukecancerinstitute.org/physical-well-being-support/sound-healing to learn more.
Cancer Support Services

Duke Cancer Institute offers a variety of support services and resources for patients and their loved ones to assist with navigating life during and after cancer treatment. In honor of this year’s Survivorship Day, the Supportive Care and Survivorship Center created DukeCancerInstitute.org/SurvivorshipDay—a site featuring videos that highlight each of the services listed in this calendar.

We encourage you to visit these sites to hear directly from our providers who strive to make the cancer experience better for everyone we serve.

Patient and Nurse Navigation
Navigators help identify and evaluate barriers to timely diagnosis and treatment of cancer. We focus on patients who are faced with multiple barriers such as transportation, housing and financial concerns. To learn more, visit DukeCancerInstitute.org/SurvivorshipDay/Navigating-Your-Care.

Clinical Social Work
Oncology and palliative care social workers help patients and their loved ones cope with the emotional and practical concerns that accompany the diagnosis and treatment of cancer. Individuals and family members are assessed to identify and address specific needs. We work together to establish interventions to help you alleviate stressors and financial burdens associated with cancer diagnoses, as well as connect you and your loved ones to resources such as disability, home health/ hospice, advance directives and end-of-life care. To learn more, visit DukeCancerInstitute.org/SurvivorshipDay/Navigating-Your-Care/Social-Work.

Chaplain Services & Education
Duke chaplains are on site seven days a week to offer spiritual support to you and your loved ones. When requested, they connect you with faith-specific representatives from the community. To learn more, contact Chaplain Services & Education at Duke Cancer Institute locations. In Raleigh, call 919.812.7972; for Duke Cancer Center in Durham, 919.684.3586; or Duke Cancer Center North Durham, 919.470.5363. To learn more, visit DukeCancerInstitute.org/SurvivorshipDay/Emotional-Health-and-Well-Being/Therapy-and-Counseling-Services.

Therapy and Counseling
Our medical family therapists provide individual, couples and family therapy. They help you and your loved ones cope with the impact of cancer. Psychiatry and psychology services are also available and offered as part of our treatment for emotional, psychological and relational issues associated with a cancer diagnosis. To learn more, visit http://dukecancerinstitute.org/therapy-and-support-groups.

Talking with Children and Teens about Cancer
Duke Cancer Patient Support Program’s certified child life specialists (CCLS) strive to help children and teens better understand and cope with serious illness in the family. Jean Hartford-Todd, CCLS, has created a video that shares how to talk with children and teens about cancer, treatments and side effects.

Support services are offered both in-person and remotely. Please call 919.684.4497 for more information.

dukecancerinstitute.org
Sexual Health Services
Sexual health services provide education on the impact cancer treatments have on sexual health and intimacy, and therapy services that address concerns surrounding sexual function, sexual feelings, intimacy and changes in sexual health. To learn more, visit http://dukecancerinstitute.org/supportivecare/sexual-health-intimacy.

Quit at Duke
Quit at Duke is a program designed to help people quit using tobacco products. Services are provided by tobacco treatment specialists and behavioral medicine clinicians. For more information or to schedule an appointment, please call 919.613.QUIT (7848). To learn more, visit http://dukecancerinstitute.org/quitatduke.

Survivorship Services
Our cancer survivorship initiative focuses on the design and delivery of high-quality survivorship care. We partner with you and your loved ones to achieve healthy, fulfilling lives beyond cancer. Areas of care that are addressed include assessment and management of both physical and emotional needs that may result from the cancer experience, cancer screenings and monitoring and counseling related to prevention and health promotion. We offer a number of clinical and supportive services. For more information, call 919.668.2122. To learn more, visit DukeHealth.org/Treatments/Cancer/Survivorship-Services.

Teen and Young Adult Oncology Program
Duke Cancer Institute’s Teen and Young Adult Oncology Program provides teen and young adult patients (ages 15 to 29) and their loved ones with support and community during a cancer diagnosis, treatment and survivorship. The program offers specialized medical care; individual, couples and family therapy; peer connection; and activity-based groups, both in the medical center and in the community. To learn more, visit DukeCancerInstitute.org/TYAO.

Palliative Care
Duke’s palliative care experts help with symptoms such as shortness of breath, pain, nausea, constipation, fatigue, anxiety, depression, trouble sleeping or experiences keeping you from feeling your best. Palliative care works closely with you and your doctors to ensure that every choice about your medical care has you at the center and is consistent with your values, while planning for the future. To schedule an appointment, call 919.668.6688, option #7. To learn more, visit DukeHealth.org/Treatments/Palliative-Care.

Self-Image Services
Our self-image consultants offer a variety of services and products to assist individuals with changes in body-image experienced during cancer treatment and survivorship. If you are interested in a self-image consultation, call 919.613.1906 or email cancersupport@duke.edu. To learn more, visit DukeCancerInstitute.org/Self-Image-Services.
Support Groups

Due to COVID-19 precautions, support groups scheduled for January will be held virtually. Duke Cancer Patient Support Program’s support groups are professionally facilitated groups, where attendees have an opportunity to meet people in a similar situation, share their experience and get support, tips and ideas from those who understand what you’re going through. Registration is required. To learn more, please call 919.684.4497 or visit DukeCancerInstitute.org/Therapy-and-Support-Groups.
